

COMP2003 — Group Meeting Minutes

24/11/2025

Attendance

- All 3 members were in attendance of today's group meeting
-

Purpose of Meeting

- To discuss current workload, how we are getting along with it
 - Mental health check in of members
 - Discuss progress updates
 - Resolve queries regarding tasks, timeline, availability
-

What was discussed

- Liam proposed a timeline display, regarding what we need to achieve in the upcoming weeks, both individually and as a group
- We established future roles regarding project and any changeovers of tasks over Christmas (i.e. relating to front -end UX design and back-end AI algorithm and AutoTask API integration)
- We communicated what our Christmas holidays and availability to work over Christmas looks like
- General queries regarding all of a ticket's attributes, what is considered important and necessary by technicians, what attributes are regularly used
- Liam worked on his task of researching and understanding AutoTask REST API documentation

- Khyati worked on her task of redesigning the UX
- Toby worked on his task of understanding AI training
